

Specialty

Battery Range Summary

Since its introduction in the early 1990s, the Genesis[®] Thin Plate Pure Lead (TPPL) battery has established itself as a premium high performance battery suitable for a wide range of demanding applications.

Today, Genesis EP batteries are found in applications as diverse as electronics, medical equipment, telecommunications, renewable energy, computer backup and Uninterruptible Power Supply (UPS) applications. In addition to its superior performance characteristics, the Genesis EP battery excels in physically demanding applications such as high temperature and high vibration environments.

The TPPL technology allows the battery to pack more power into a smaller footprint. The EP battery also offers deep cycling capabilities, fast recharge abilities and a non-spillable design which allows mounting in any position except inverted.

Features and Benefits

- Capacity range 13 200Ah
- High power density
- Excellent cycle life
- Superior float life
- High stable voltage delivery
- Wide temperature range
- Rugged construction
- · Fastest recharge when compare to other sealed lead batteries
- 2 year shelf life

Construction

- 12V pure lead-tin Valve Regulated Lead Acid (VRLA) • Absorbent Glass Mat (AGM) battery
- UL 94V0 flame retardant case and cover •
- M6 no-maintenance terminals •
- Can be installed in any orientation except inverted • Rugged construction (optional metal jacket -• G200EP excluded)

Installation and Operation

- -40°F (-40°C) to 176°F (80°C) with optional metal • jacket (G200EP excluded)
- 2 year shelf life at 77°F (25°C) •
- Cycle life up to 400 cycles at 80% depth of • discharge

Standards

- Non-spillable classification
- Approved for shipping as non-hazardous, non spillable (refer to SDS sheet)
- Recognized by UL File no. MH12544 • (excludes G200EP); G200EP recognized by UL File no. MH18697
- The management systems governing the • manufacture of this product are ISO 9001 and ISO 140001 certified
