

Safety Data Sheet dated 13/6/2006, version 1

1. IDENTIFICATION OF THE PRODUCT AND OF THE COMPANY

Trade name: STAGNO OSSIDO IN SACCHI
Trade code: AS0095S
Product type and use: Inorganic pigment

2. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical characteristics of the product:
Inorganic pigment
Hazardous components within the meaning of EEC directive 67/548 and corresponding classification:
95% - 100% Tin oxide

For possible / further substances with limit of exposure ACGIH, see paragraph 8.

3. HAZARDS IDENTIFICATION

No specific hazards are encountered under normal product use.

4. FIRST AID MEASURES

Contact with skin:
Wash with plenty of water and soap.
Contact with eyes:
Wash immediately with water for at least 10 minutes.
Swallowing:
Give water to drink.
Inhalation:
Ventilate the premises. The patient is to be removed immediately from the contaminated premises and made to rest in a well ventilated area. Should the patient feel unwell, OBTAIN MEDICAL ATTENTION.

In case of remarkable contact, inhalation or ingestion, SEEK A MEDICAL EXAMINATION, showing the label of the product.

5. FIRE-FIGHTING MEASURES

Recommended extinguishers:
Water, CO₂, Foam, Chemical powders, according to the materials involved in the fire.
Extinguishers not to be used:
None in particular.
Risks arising from combustion:
Avoid inhaling the fumes.
Protective equipment:
Use protection for the respiratory tract.

6. ACCIDENTAL RELEASE MEASURES

Measures for personal safety:
Use gloves and protective clothing.
Environmental measures:
Limit leakages with earth or sand.
If the product has escaped into a water course, into the drainage system, or has contaminated the ground or vegetation, notify the competent authorities.
Cleaning methods:
If the product is in a liquid form, stop it from entering the drainage system.
Recover the product for re-use if possible, or for elimination. The product might, where appropriate, be absorbed by inert material.
After the product has been recovered, rinse the area and materials involved with water.

7. HANDLING AND STORAGE

Handling precautions:
Avoid contact and inhalation of the vapours. See, too, paragraph 8 below.
Do not eat or drink while working.
Incompatible materials:
None in particular.
Storage conditions:
Instructions as regards storage premises:
Adequately ventilated premises.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limit(s) (ACGIH):
Tin oxide and inorganic compounds:
2 mg/m³ (as Sn) - OEL 8 hrs.
Not classified particles:
10 mg/m³ (inhalable part)

3 mg/m³ (breathable part)

Precautionary measures:

Give adequate ventilation to the premises where the product is stored and/or handled.

Respiratory protection:

Not needed for normal use.

Protection for hands:

Not needed for normal use.

Eye protection:

Not needed for normal use.

Protection for skin:

No special precaution must be adopted for normal use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance and colour:	polvere bianca
Odour:	no
pH:	not applicable
Melting point:	> 1000°C
Boiling point:	not applicable
Solid/gas flammability:	not applicable
Flash point:	not applicable
Explosive properties:	not applicable
Oxidizing properties:	not applicable
Vapour pressure:	not applicable
Relative density:	not available
Solubility in water:	practically insoluble
Lipid solubility:	practically insoluble

10. STABILITY AND REACTIVITY

Conditions to avoid:

Stable under normal conditions.

Substances to avoid:

None in particular.

Hazardous decomposition products:

None.

11. TOXICOLOGICAL INFORMATION

Set out below is the toxicological information relating to the main substances in the preparation.

The concentration of each substance should be borne in mind in assessing the toxicological effects deriving from the preparation.

The product does not contain toxicologically relevant substances.

12. ECOLOGICAL INFORMATION

Adopt good working practices, so that the product is not released into the environment.

13. DISPOSAL CONSIDERATIONS

Recover if possible. In so doing, comply with the local and national regulations currently in force.

14. TRANSPORT INFORMATION

Not classified as dangerous in the meaning of transport regulations.

15. REGULATORY INFORMATION

88/379/EEC (Classification and Labelling):

The preparation should not be considered as dangerous accordingly to dir. 88/379/EEC.

Where applicable, refer to the following regulatory provisions :

Directive 82/501/EEC ('Activities linked to risks of serious accidents') and subsequent amendments.
