ORBITAL- & TIG HAND  
WELDING MACHINE**

# PRODUCT INFO

## 2in1 System Low Budget All-in-One Orbital- & TIG Hand Welding Machine

The 2in1 is the most reasonably priced and most innovative all-in-one orbital welding and tig hand welding machine of the world.

The multivoltage power supply enables a worldwide operation.

It is the ideal companion for metalworking, breweries, dairies or pipe fitters.

### FEATURES //

- high quality TIG hand and orbital welding machine with a power output of 220 A DC
- easily usable color display
- 64 hand weld programs storable
- 99 orbital welding programs with a guided program creation (automatic program calculation)
- 15 kg
- 1 x 230/115 V plus/minus 15 %
- updatable
- high frequency pulsing for TIG hand and orbital welding (2500 Hz)
- temperature controlled ventilation
- and more ...

### SCOPE OF DELIVERY OF THE BASIC-SET //

- open weld heads OWH 114
- TIG torch - gas cooled 5 m
- remote control RCplus+
- gas hose
- ground cable

### ADDITIONALLY ACQUIRABLE ACCESSORIES //

- mounting trolley (4 wheels)
- transport case
- water cooler
- rolling system / turn tables
- AVC-OSC
- cold wire feeder
- hand torch (gas or water cooled)
- bluetooth printer
- oxygen analyzer
- many different open and closed weld heads (also from competitors)
