CAPACITIVE SENSORS • NORM SWITCHING DISTANCE

Capacitive proximity switches are contact-free sensors. They detect metallic and non-metallic objects, regardless of whether they move or not. The achievable sensing range of the devices depends on the object material, its dimensions and the response sensitivity, which is set via a potentiometer. The vibration-resistant sensors can be approached laterally or frontally. Capacitive proximity switches are used for presence detection (e.g. sealing detection), positioning (e.g. PET bottles), counting (e.g. plastic caps), level detection (e.g. lubricant) or distance measurements (e.g. thickness measurement) of solid and liquid materials.

MECHANICAL FEATURES

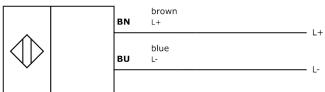

MECHANICAL FEATORES	
Ambient temperature	-25 °C 70 °C
Degree of protection (IP)	IP67
Housing coating	Nickel-plated
Housing design	Cylinder, screw-thread
Housing material	Brass
Mechanical mounting condition for sensor	Flush
Pressure-proof	-
Sensor length	35 mm
Thread pitch	1 mm
Thread size, metric	8
ELECTRICAL FEATURES	
Cascadable	
	-
Suitable for safety functions	-
Switching distance	0.5 mm
Switching distance	0.5 mm 0.5 mm
Type of electrical connection	Cable
Type of switching function	Amplifier
Type of switching output	NAMUR
Voltage type	DC
With monitoring function of downstream devices	-
OTHER FEATURES	
Explosion safety category for gas	ATEX gas-ex-protection, Cat. 1G
Level detection	+
Other	
Packaging dimensions	124.0mm x 28.0mm x 149.0mm
Shipping weight	0.11kg
Tariff code	85365019

Installation

Disposal

Mounting / installation may only be carried out by a qualified electrician!

Software

Please download the software or driver required for operating your new device on our homepage: www.ipf.de

Safety warnings

Before initial operation, please make sure to follow all safety instructions that may be provided in the product information.

Never use these devices in applications where the safety of a person depends on their functionality.

LED lighting systems can generate intensive UV radiation, which can damage your eyes in case of improper use. The manufacturer cannot be held responsible for damages that result from improper use or connection.
