

BENEFITS:

- Over 800 photo flash*
- Excellent performance in professional and medical devices
- Maintains high performance in extreme weather (-40°C to 60°C)

APPLICATIONS BEST FOR:

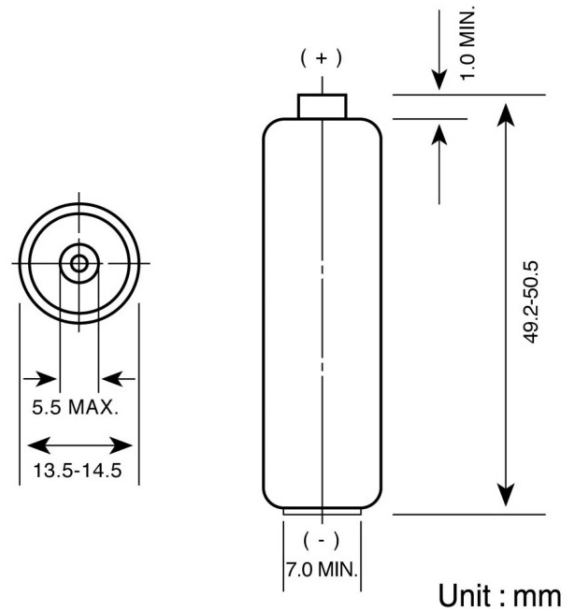

Other Details:

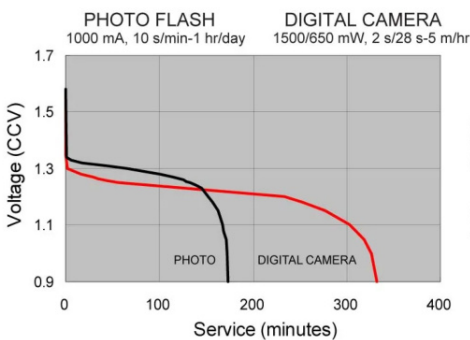

- Mercury Free Lithium / Iron Disulfide chemistry
- Cylindrical cell type
- Average weight: 14.5g

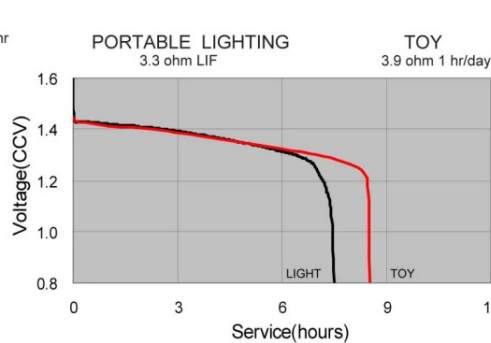

- GP Lithium AA Battery
- AA Size
- 1.5 Volts

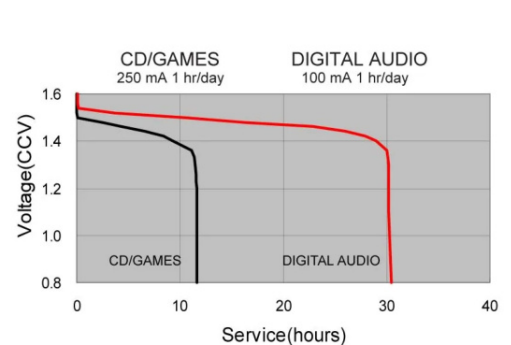

Application Tests(23±2°C)

Application Tests(23±2°C)

Application Tests(23±2°C)

*Internal test by GP Batteries - Performance may vary under different operating conditions.
