

# Henza 18650 3000mAh 10C (30A)

## Lithium Ion Cell

The Henza 18650 3000mAh is a popular lithium-ion cell. It is intended for use in high current 18650 battery packs. It can power a wide range of devices including a drone, photo printer, or cordless vacuum cleaner.

Do not purchase 18650 batteries before reading and understanding these safety cautions. Using a lithium-ion cell incorrectly may cause it to leak, generate heat, smoke, catch on fire, or explode.

### SAFETY

- + The cell must stay in the operating temperatures outlined in its data sheet
- + The cell must not exceed voltage, current, and other ratings in its data sheet
- + Store batteries separately, and do not transport without proper packaging
- + Never store or transport together with conductive or metallic objects particularly in a pocket or bag
- + Do not keep in the sun, in a hot car, or anywhere with direct heat
- + If the cell is attached to a PCB, keep it away from high-static environments
- + Recycle discontinued batteries according to local regulations and cover terminals with insulating tape before disposal
- + Discharge end or cut-off voltage in data sheet is lower-limit for discharge cycle and should not be exceeded
- + Charger or device should implement warning for over-voltage, over current, and over-temperature, control of overcharge, and charge timer
- + Be careful not to short-circuit

### TECHNICAL DATA

Cell Dimensions	18.5x65mm
Cell Weight	45.5 ± 2g
Cell Capacity (nominal/minimum) (0.5C Rate)	3000mAh
Voltage (nominal)	3.6V
Internal Resistance (23 ± 2°C)	<18mΩ
Energy Density	10.80Wh
Recommended Standard Charge Method	600mA, 4.2V CC-CV
Maximum Charge Method	3000mA, 4.2V CC-CV
Maximum Continuous Discharge	24000mA – 8C
Maximum Pulse Discharge	30000mA – 10C
Discharge Cut-off Voltage	2.75V
Cycle Life	1000 cycles
Operating Temperature	-20°C to 60°C
Storage Temperature	0°C to 35°C
