

Data Sheet

4W LED Work Light

18660

Designation: 18660

Battery Requirement: VARTA 435 or 540 battery

Bulb required: CREE XR-E Q4 Cool White LED

Luminous intensity: High: 190 lumens or 44100 cd
Low: 70 lm / 16900 cd

Range: 420m for high / 260 m for low (calculated distance at maximum luminous intensity with an illuminance of 0.25lux).

Weight: 1910g (with batteries).

Material:

- Aluminum Alloy
- ABS (Acrylonitrile Butadiene Styrene)
- POM (polyoxymethylene)
- PC (Polycarbonate)
- Steel
- Rubber

All contact parts made of steel or bronze or stainless steel

Dimensions (mm):

A	128.5
B	240
C	135
D	270
E	80

Run Time: High mode: 110 hours (with VARTA 435, light drop to 10% per ANSI)
Low mode: 270 hours (with VARTA 435, light drop to 10% per ANSI)

Features:

- Rocker switch (High/Off/Low)
- Deep and big reflector design provide long beam
- Strong aluminium construction with black epoxy powder coat
- 145° swivel head
- 1 meter impact resistant
- Carry strap
