HOSPITALITY

2024-2026

dinnerdesign®

Asuman Savural launched her first woven tabletop textiles into the hospitality sector over a decade ago.

Since that time, She has been offering a growing range of products with modern, elegant, and durable textiles designed together with her team.

Designers and owners of hotels and restaurants all over the world continue to rely on dinnerdesign® for high technology and new textiles that help save money on energy and cleaning while also looking great and being durable and easy to clean.

dinnerdesign® textiles offer tremendous versatility when it comes to design. This, combined with the fact that they are also easy to clean, durable, and stain-resistant, makes them the reliable choice when quality is important.

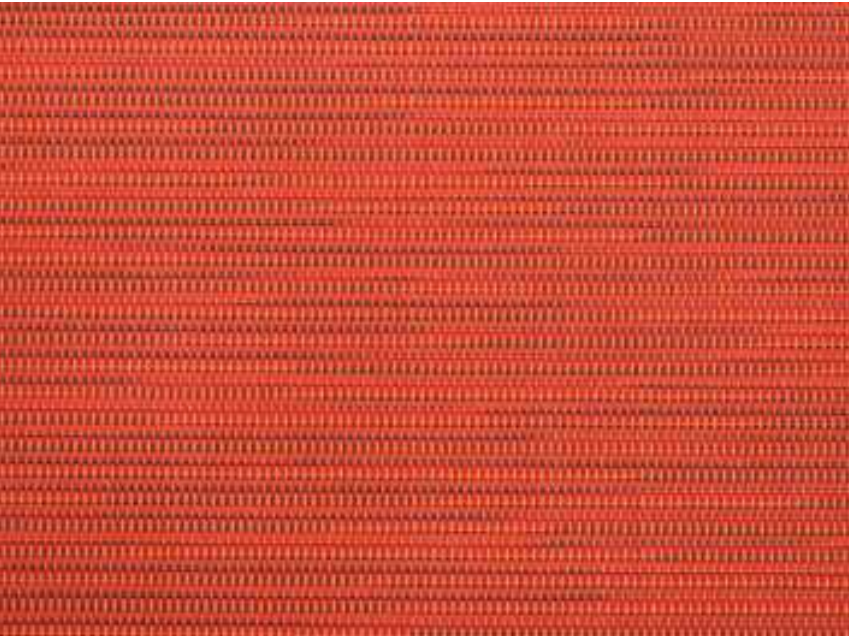

All dinnerdesign® fabrics contain Microban® antimicrobial protection. Microban® works continuously for the lifetime of the product to inhibit the growth of stain- and odor-causing bacteria, mold, and mildew.

TRUSTED CHOICE

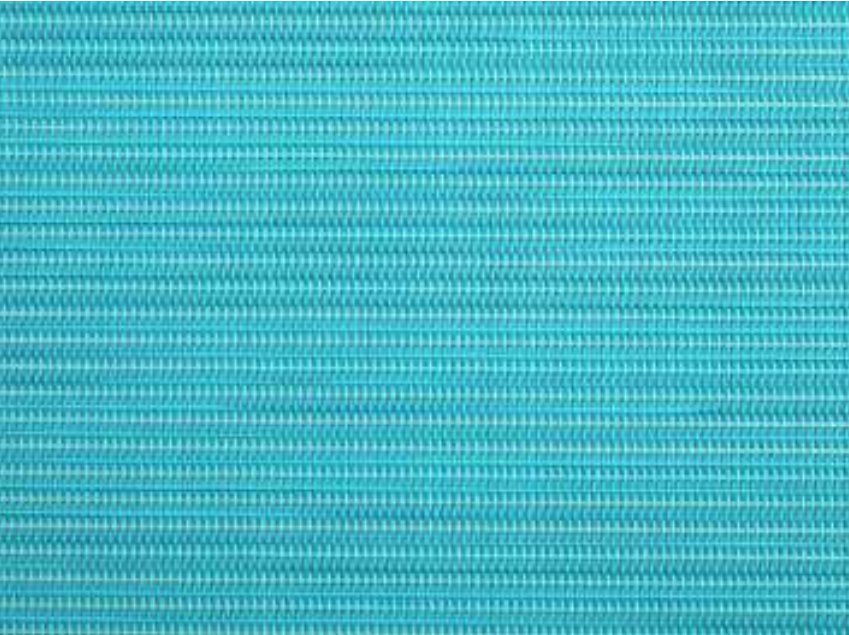

More than 500+ valued hotels and restaurants around the world use the tabletop textiles that dinnerdesign® offers.

All dinnerdesign® fabrics contain Microban® protection. Microban® works continuously throughout the life of the product to prevent the growth of bacteria and mold that cause stains and odors.

How Does Microban® Technology Works

Microban® is completely safe for humans and pets. As soon as the microbe protection reaches a surface, it penetrates the walls of the micro-organism cells, impairing their growth and reproductive ability.

dinnerdesign® fabrics are covered by the GreenGuard® program, approved by the GreenGuard Environmental Institute, which protects human health and quality of life by reducing exposure to chemicals and improving indoor air quality.

CLEANING & MAINTENANCE

Placemats and Runners

- Use soap, water, and a soft sponge or cloth to wipe it clean. In addition, Rinse with clean water and let dry in the open air.
- Use a soft bristle brush and a cleaner with bleach to get rid of tough spots.
- They can be cleaned with dishwasher if they are put straight in their normal form.
- Do not clean with washing machine or dryer.
- If you don't clean the placemat or runner right away after spilling tomato, hot pepper sauce, turmeric, or other foods or liquids that color easily, they might stay there for a longer time. This is more likely to happen with fabrics that are lighter in color. Please clean up these spills right away to avoid damage or shading that won't go away.

SPECIFICATIONS

dinnerdesign® textiles are made into placemats, runners, table covers, traymats and coasters in our own facility with state-of-the-art equipment under our watchful eyes to ensure the highest quality.

How Is Durability Defined?

The basic definition of durability is “the ability to withstand repeated use over a fairly long period.” The woven surface of our Table top textiles features exceptional abrasion resistance. Very durable and maintain their look over long periods of time. It repels water and air-dries quickly, while the vinyl coating that covers its polyester fiber keeps water from ever soaking into the yarn.

Does not contain phthalates. Suitable for indoor and outdoor use.

All dinnerdesign® textiles are Flame Retardant.
