

Sea, sand, sun and you; Beach Bag

Although spending time by the sea is a very enjoyable activity,
The burning effect of sun rays and salt water can turn into torture from time to time.
Therefore, it is useful to go to the beach prepared to protect ourselves from these effects.

Spare swimsuits and bikinis, sunscreens, towels, more enjoyable
Airpods, tablet, portable speakers.. This stand alone small
your beach migration, which looks small and turns into a mountain when put together,
is easier. a huge and useful beach, colorful in the details, to make
We designed the collection.

While designing this collection, you can choose the items you need to take with you from
sand and sun. And because it is one of our first goals to protect it from water, we used
Pilsa fabrics. Because pilsa fabric is stain-proof, waterproof, resistant and durable
fabric type. The greatest danger to our belongings on the beach, ironically,
is the water for which we go. Getting our items (especially technological ones) in our
beach bag wet,it can destroy all our holiday enjoyment. At this point, pilsa bags
are waterproof.

With its water-repellent feature, it can be placed in the very corner of the bags
that we prefer most. is settling in. In other words, to protect us from all the dangers for our
belongings on the beach. It's cut out for you.
