Incifer

Reaches women all over the world with its collection, which is decorated with pearls. Pearls have been symbols of nobility, elegance and innocence for centuries. Combining pearls with modern lines, all original designs of the brand are produced in the Grand Bazaar, which has been the center of craftsmanship for centuries. Incifer has agreements with 20 stores in Turkey such as Beymen, Gizia, Harvey Nichols, Brandroom, Galeries Lafayette. The designs are offered to buyers in the Middle East, Azerbaijan, Europe and the USA. Taking its name from the brand's creator and founder Incifer İbiş, Incifer focuses on producing only modern pearl designs, revealing its own brand difference between luxury jewelry brands.
