TENCEL COLLECTION

%100
FRESH

Essentially, tencel refers to a cellulosic fibre that is typically obtained from wood pulps with the help of recyclable solvents.

But why is it any special ?
That is not because it breathes very well or because it is very resistant . The reason behind its value is not even caused by its shine! It is special because we can not get enough of touching it.
You won't be able to...

Tencel özünde geri dönüştürülebilir çözücülerin yardımı ile doğal ağaç elyafından elde edilen selülozik bir lifdir.

*Peki tencel neden özel ?
Aslında çok iyi nefes aldığı ya çok dayanıklı olduğu için değil. Onu değerli kılan karşılaştırılmaz parlaklığı da değil!
Tencel özel çünkü biz ona dokunmaya doyamıyoruz..
Siz de doyamayacaksınız..*

LOVE YOURSELF
AS SUMMER LOVES BLUE SKIES!

*Yaz mavi gökyüzünü nasıl seviyorsa

The bohemian aspect of our souls touches upon textiles. A modern ethnicism is being recreated with a warm atmosphere through textiles. Natural touches create a unique adventure between the traditional and the modern.

Ruhumuzun bohem yanı, tekstile dokunuyor. Modern bir etnizm, sıcak bir atmosfer tekstillerle yeniden yaratılıyor. Doğal dokunuşlar geleneksel ile modern arasında eşsiz bir serüven yaratıyor.
