Re: New OEM Format for Parts Catalogs

We are pleased to issue you this OEM parts catalog in our new format. We are trying to meet the needs of our customers by using a Worldwide format throughout the Deere Power Systems Group.

New features to this catalog include pictorial indexes and translations. You will also notice that the catalog is arranged by option codes. It is our belief that this will be an easier format to work with universally.

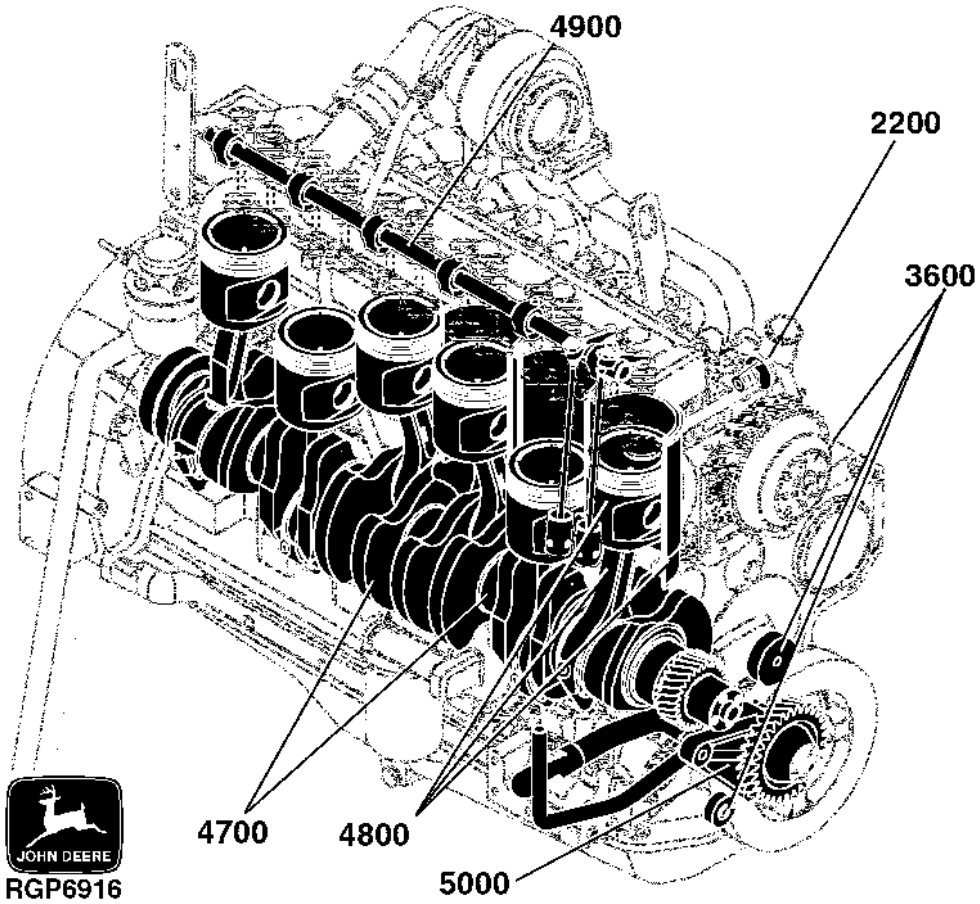

As always, we are interested in your response to this new format. A survey will be directed to you in the next few months to address the likes and dislikes regarding this new format.
